

PRESS RELEASE - September 19th 2017 Night Sky for tvOS

Night Sky is your tour guide!

iCandi Apps ®, the creators of the Night Sky stargazing apps are set to release **a completely reimagined version of Night Sky, specifically for Apple TV.**

This powerful new version of Night Sky has been **totally rewritten from the ground up** to take you on tours of the Sky from **anywhere in the world, with Night Sky being your tour guide!** With an all new beautifully rich Sky View, including new **Environment Based Horizon Lines**, you'll be totally engrossed with the powerful information Night Sky is able to deliver, from the comfort of your own living room!

- Sky Tours

Let Night Sky be your tour guide to the sky above for any location you choose! Simply drop a pin on the map, and Night Sky will guide you through the Night for that location. From sunset to sunrise, **commenting on light pollution, stargazing conditions for the night ahead, constellations, planets, and Moon illumination. It will even tell you when the ISS will be flying overhead!**

- Major Event and Moon Tours

Explore historic and momentous sky events such as the **2017 American Solar Eclipse.** We've also brought totally **Remastered Moon Tours** with amazing sites of interest!

- My Tours

Create your own tours for any location and time in the world at the click of your remote! Just drop a pin on the world map, and Night Sky will generate a Sky Tour for that location and save it into My Tours for quick and easy access. Be sure to create a tour for your favorite camp site, and next summer vacation! My Tours now syncs with Night Sky 5 on iOS!

- Environment Based Horizon Lines

Night Sky changes the horizon line and sky color dependent on the environment! See the skyline for **San Francisco, New York, Chicago, London, Paris, Sydney, Beijing, and many more!** Also see deserts, the ocean, and rainforests!

"Night Sky has been completely reimagined in this new powerful utilisation of Apple TV! Sky Tours combined with the new Environment Based Horizon Lines, literally transport you to any location or time on Earth, so now you can stargaze from anywhere without leaving the comfort of your living room!"

- Andy Weekes, Founder & Company Director – iCandi Apps.

iCandi Apps® was founded in 2008 by Andy Weekes, after he was inspired by the **App Store introductory keynote by Steve Jobs**. Andy went from being a school teacher to creating one of **the most successful reference apps in the world**. With accolades including **three number one hits** and even having **Night Sky preinstalled onto iPhone and iPad in Apple Retail Stores worldwide**, Andy has **seen success he couldn't have even dreamed of**. With the launch of Night Sky on tvOS with Sky Tours and Environment Based Horizon Lines, iCandi Apps® is set to introduce some new technologies which will take Night Sky into its next chapter.

Night Sky for tvOS with Sky Tours syncing with Night Sky 5 is available to download on the App Store on tvOS from September 19th 2017.
