

## PRESS RELEASE - September 16th 2020

### Night Sky 8 - Designed for iOS/iPadOS 14 and watchOS 7 Night Sky app adds BILLIONS of stars!

Night Sky - the world famous stargazing app, has today launched its biggest update in 9 years by adding **1.7 BILLION** accurately mapped stars to the app!

Along with additional new features such as Starlink String Flyover Notifications, a new Night Sky Widget designed for iOS/iPadOS 14, a sharable Night Sky Watch Face for watchOS 7, and many other features. Night Sky also debuts in 18 new languages in Night Sky 8, making it available in all 36 languages the App Store supports!

#### WHATS NEW?

**+ BILLIONS OF STARS!** (Premium Feature) - Space is vast, so Night Sky has been hyper charged in Night Sky 8 with over 1.7 BILLION ACCURATELY MAPPED STARS streamed from the cloud! With a new super deep zoom greater than 10X before, prepare to delve deeper into space than ever before!

**+ NEW - STARLINK STRING FLYOVER NOTIFICATIONS** - Get notified when a string of the recently launched Starlink satellites are about to flyover your current location!

**+ NEW - NIGHT SKY WIDGET** - Add the beautiful new Night Sky Widget new for iOS 14. Available in multiple sizes get relevant data to your location on satellite flyovers, conditions, and your favorite objects!

**+ NEW - NIGHT SKY WATCH FACE** - A new Watch face designed to bring all your Night Sky complications to your wrist in watchOS 7! Share it with others directly from Night Sky!

**+ NEW - 18 NEW LANGUAGES** - Night Sky now fully supports every language on the App Store! New support for Catalan, Croatian, Czech, Danish, Dutch, Finnish, Greek, Hindi, Hungarian, Indonesian, Malay, Norwegian, Romanian, Slovak, Swedish, Thai, Ukrainian and Vietnamese.

**+ IMPROVED MAPS STYLE UI** - A clean and familiar interface with Search features and new main menu, including Quick Find, intelligent Night Red Mode, Light Pollution indicator and easy to use menu, prepare to navigate Night Sky quicker than ever before!

**+ UPDATED AR GRAND ORRERY** (Premium Feature) - Walk around the entire Solar System using the newly refreshed interactive Grand Orrery that morphs out of the Sky View!

**+ ADLER PLANETARIUM APP CLIP** - We've worked in collaboration with the Adler Planetarium in Chicago to bring a AR experience to visitors. Raise Night Sky to labelled objects to view immersive content, and interact with 3D models. Get a taste upon arrival with the new Adler App Clip on iOS 14!

*"Night Sky 8 was probably one of our **biggest challenges to date, delivering 1.7 BILLION stars** to the palm of your hand! This amount of data is truly vast, and it makes Night Sky one of the **most insightful** and **most powerful apps available on the App Store**. We've also made this amount of data **more accessible** than ever before, by adding 18 new languages to Night Sky. This makes Night Sky **available in all 36 languages** the App Store supports!"*

- Andy Weekes, Founder & Company Director, iCandi Apps.

iCandi Apps was founded in 2008 by Andy Weekes, after he was inspired by the introduction of the App Store by Steve Jobs. Andy went from being a school teacher to creating one of the most successful reference apps in the world. Having achieved number one ranking in numerous markets, Andy has seen success he couldn't have even dreamed of. With the launch of Night Sky 8 with over 1.7 BILLION stars, Night Sky becomes one of the most insightful and powerful apps available on the App Store today!

Night Sky 8 is available to download for iOS, iPadOS and watchOS from the App Store from September 16th 2020 -
